Appellant name: **Jeff Blakeney**  
Applicant name: **Magnet Cove Public School District**  
BEN: **139512**  
Application number: **562156**  
Funding Request Number(s): **1628205**

I am appealing the decision indicated in the letter dated July 09, 2007 to our application number 562156 by USAC.

*"Federal Communications Commission (FCC) rule do not permit USAC to consider request for waivers."*

I am appealing the USAC decision based on change in personnel assignments. Our current bookkeeper, Becky Moore handed off the District's telecommunication E-Rate funding to Assistant bookkeeper, Darla Jones on the morning of January 12, 2007. She has never been involved with the process of E-rate and asked for assistance. I attempted to file the form electronically because of the deadline using my electronic pin to assist her. Form 470 was filed on January 12, 2007. Our District does not have any choices in telecommunications services. The only provider available in our area is ATT. I attempted to file Form 471 on Feb 8, 2007 and was unable to file online at that time because the program would not let me due to the fact it had not been open for thirty days. I was finally able to file the Form 471 application number 562156 for her with my electronic PIN on the morning of Feb 9, 2007. This is the reason our form was "Filed Out of Window"

Please inform me of any correspondences you may need.
